

4/12/2022

*Nightingale Suites Residents and Families,*

*We wanted to send out a construction update. Painting has been completed in all the common areas and hallways. Carpet demo and installation has begun. We are patiently waiting for materials to complete the carpet installation. Furniture was ordered several months ago, and we are now dealing with out-of-stock items and material delays. We are diligently working with our construction and design teams to complete the project as soon as possible. Thank you for understanding and for your ongoing patience over the next few months as we work to complete the update of our common areas. We are all looking forward to enjoying our freshly updated living spaces.*

Thank you –
